Company Description:

Leads.net.bd is Bangladesh's first website for education consultancy. Established in 2005, Leads looks after the admission units of some world renowned Universities and colleges. In a unique position. Leads International is authorized to check students' credentials to issue Offer Letters, provide professional career and program counseling, and assist on Visa and accommodation matters. With a highly skilled workforce dedicated to serving local students. Leads International conducts on-going research projects to ensure practical minded support to their students. Leads came to byteSHAKE to replicate their prestigious position on the Internet, and extend their services so that students could keep in touch with Leads from around the world.
